Cloud Storage Save / Upload

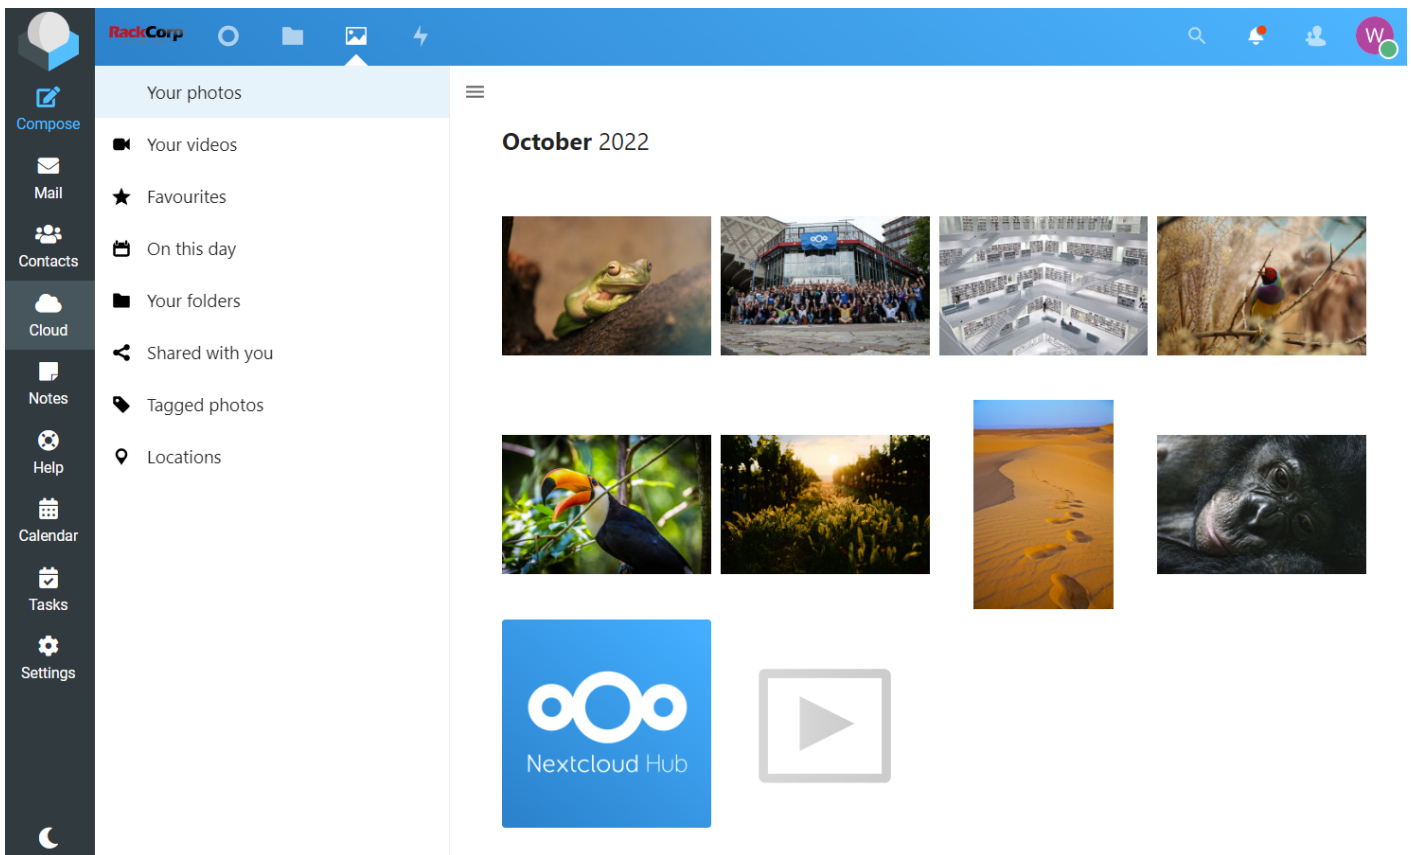

The RackCorp UMS has a very useful cloud storage capability built-in the the web interface, and includes mobile apps for IOS and Android. Using this interface, a user can very quickly and easily access their stored cloud files, while also having powerful tools available for synchronising their cloud storage to personal laptops / desktops.

Viewing Cloud Storage

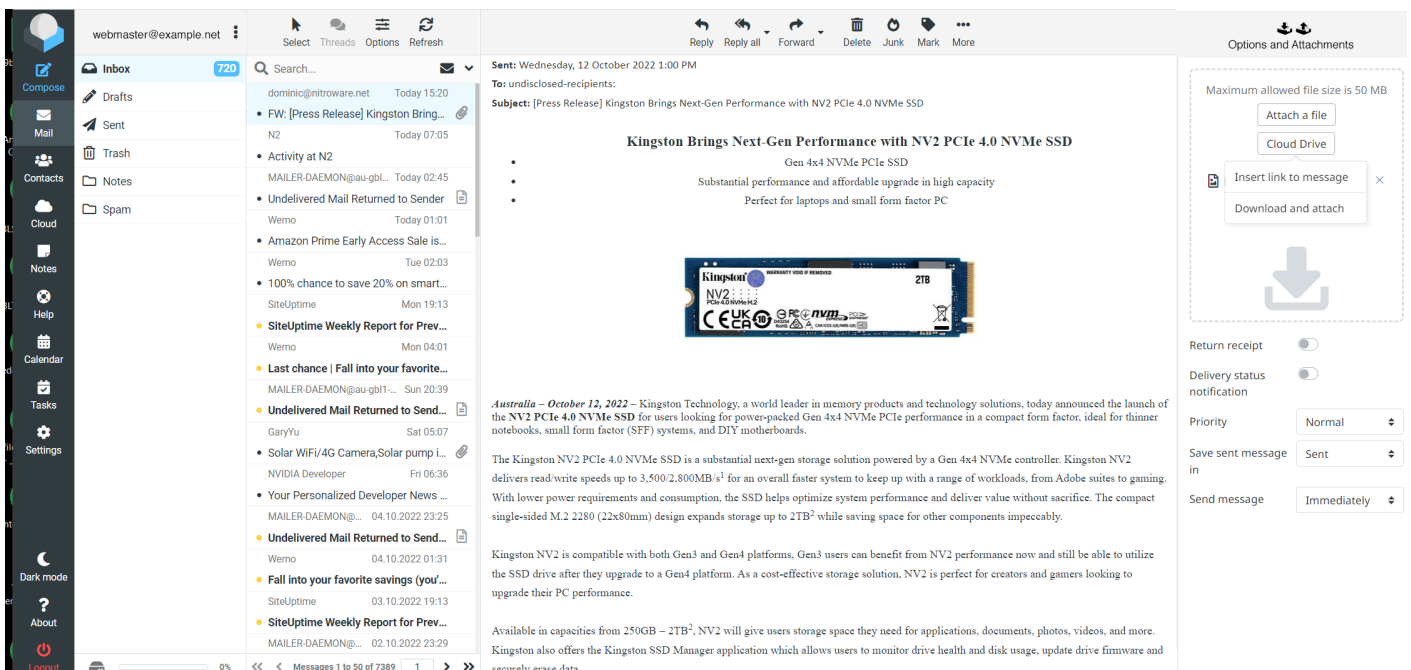

The screenshot shows the RackCorp UMS web interface. The sidebar on the left contains navigation options: Compose, Mail, Contacts, Cloud (highlighted), Notes, Help, Calendar, Tasks, and Settings. The main area displays a list of files and folders. The 'Files' tab is selected in the top navigation bar. The list includes folders like 'Documents', 'Photos', 'Talk', and 'Templates', as well as files like 'Nextcloud.png', 'Nextcloud intro.mp4', 'Nextcloud Manual.pdf', and 'Reasons to use Nextcloud.pdf'. The 'Cloud' section is highlighted in the sidebar, and the 'Files' tab is selected in the top navigation bar.
